

# Mike Zarra

Full Stack Developer

153 Mount View Ave  
North Kingstown, RI 02852  
(732) 832-9629  
mkzarra@gmail.com

## EXPERIENCE

### **Girl Develop It, Providence RI — Volunteer**

June 2015 - January 2019

Help Chapter Leaders and Teachers assess needs for events, set up for events by preparing equipment, and provide insight on class materials

### **Mystic River Watershed Association — Volunteer**

July 2019

Provided advice on ways to improve website performance without sacrificing reliability or losing support from their CMS provider

### **Wegmans, Ocean Township, NJ — Customer Service/Deli**

May 2010 - July 2013

Help customers assess needs by asking thoughtful questions and train new team members on how to safely clean maintain and operate dangerous equipment

## EDUCATION

### **General Assembly, Providence RI — Certificate**

May 2018 - August 2018

**Web Development Immersive:** 12 week, 600 hour web development program in which I developed 4 full stack applications using a variety of different technologies

### **Community College of RI, Warwick RI — Associates**

Jan 2017 - Present

**Business Administration:** 3.55 GPA with a focus on Accounting

## PROJECTS

### **Stay Fresh — MERN Stack web app with Redux**

An organizational tool designed to help users reduce waste and increase savings by monitoring the shelf life of the items in their kitchen. Uses OAuth2, node-cron, and SendGrid. Hosted on Heroku

## SKILLS

JavaScript | ReactJS | Redux  
jQuery | HTML5 | CSS3  
Node.js | Ruby on Rails  
MongoDB | SQL | Git | Heroku  
Firebase | ASP.NET | OAuth2  
Node-Cron | Express.js | C#

## Soft Skills

Communication | Self-starter  
Team work | Problem solving  
Adaptive | Empathy | Curious

## Aside

I spent the last few years contributing to my household as a homemaker. This gave me the opportunity to pursue numerous academic subjects. I've studied economics, music, accounting, history, and even dog training, but studying web development changed my life. I love the challenges and puzzles that comes with each new project. I love the absolute need to always be learning, and I can't imagine doing anything else.
