EXPERIENCE

Girl Develop It, Providence RI — *Volunteer*

June 2015 - January 2019

Help Chapter Leaders and Teachers assess needs for events, set up for events by preparing equipment, and provide insight on class materials

Web Development Tutor — *Self-employed*

September 2018 - Present

Taught students best JavaScript practices and advanced ReactJS concepts to build clean and elegant user interfaces and how to use troubleshooting tools and techniques to effectively locate and fix bugs in their applications

EDUCATION

General Assembly, Providence RI — *Certificate*

May 2018 - August 2018

Web Development Immersive: 12 week, 600 hour web development program in which I developed 4 full stack applications using a variety of different technologies

Community College of RI, Warwick RI — *Associates*

Jan 2017 - Present

Business Administration: 3.55 GPA with a focus on Accounting

PROJECTS

Stay Fresh— *MERN Stack web app with Redux*

An organizational tool designed to help users reduce waste and increase savings by monitoring the shelf life of the items in their kitchen. Uses OAuth2, node-cron, and SendGrid. Hosted on Heroku

Timbrealla!— *React app with Firebase*

Users write stories and edit others. All stories are editable and there is no authentication. Watch stories evolve as users expand on each others' ideas. Built with React using hooks.

SKILLS

JavaScript | ReactJS | Redux
jQuery | HTML5 | CSS3
Node.js | Ruby on Rails | AWS
MongoDB | SQL | Git | Heroku
Firebase | ASP.NET | OAuth(2)
Node-Cron | Express.js | C#

Soft Skills

Communication | Self-starter
Team work | Problem solving
Adaptive | Empathy | Curious

Profiles

Github | Stack Overflow
Portfolio | Linkedin

Aside

I spent the last few years contributing to my household as a homemaker. This gave me the opportunity to pursue numerous academic subjects. I've studied economics, music, accounting, history, and even dog training, but studying web development changed my life. I love the challenges and puzzles that come with each new project. I love the absolute need to always be learning, and I can't imagine doing anything else.
